# CHRISTMAS ORNAMENTS

## *Paper Star*

### *Supplies*

colored paper

craft glue

string

scissors

### *Directions*

Print out the pattern on the following page onto card stock then cut out all of the pieces. Fold down along the two dashed lines. Glue the A flaps to the B flaps, applying the glue on the side with the writing.

The result will be a star that is slightly raised in the middle. For an even more three-dimensional star, repeat all the above steps to end up with two stars. Apply glue to the inside of the triangle tips and glue both halves together. Let the glue dry completely, punch a small hole in one point, and then use a piece of string to hang up your star.
